

Steps required for new connection

Customer ↑

↓ Západoslovenská distribučná

Additional information:

Application for connection of the equipment to the distribution system (Step 1)

Application for connection including the manual on how to fill it out is available on the website of Západoslovenská distribučná, a.s. You can submit the Application electronically, via telephone (only for households) or in person.

Contract on connection of the Applicant's electricity consumption equipment to the distribution system (Step 2)

The Contract includes information on Technical conditions to be fulfilled by the Customer and Západoslovenská distribučná, a.s., and also about the price of the connection.

Mail address of Západoslovenská distribučná, a.s. (Step 3 and Step 5)

Západoslovenská distribučná, a.s., P.O.BOX 292, 810 00 Bratislava 1.

Price of connection (Step 4)

You can pay the price of connection by a postal money order (attached to the Contract on connection), bank transfer or via QR code.

Technical conditions for connection (Step 5)

Annex 1 to the Contract on connection of the Applicant's electricity consumption equipment to the distribution system. Your electrician will help you with Technical conditions for connection.

Tips to shorten the process

- Once your supply point is ready (Step 5), please deliver all required documents specified in the Technical conditions for connection (Annex 1 to the Contract on connection) as soon as possible,
- **Once you receive the Notification on fulfilling the Technical conditions for connection (Step 7), please, contact your electricity supplier as soon as possible and make a contract on electricity supply and distribution (Step 8). Only then we will install the meter (Step 9).**
